SARABI TECH

Infinite Possibilities
Endless Opportunities

www.sarabi.tech

Who We Are.

Sarabi Tech is an innovation-led technology company specialising in cloud computing, supporting businesses to become connected, open, intelligent and scalable. Sarabi's methodology brings together industry expertise, cloud technology excellence, design innovation and strategic engagement models to deliver sustained value to our clients.

A trusted partner of clients in the retaill, hospitality, travel, leisure and service industries. Our solutions help our clients to streamline their business processes, optimize revenue streams and enhance their customer service experiences.

We have a relentless focus on delivering scalable and reliable technology platforms which can be the growth engine for aspiring organizations.
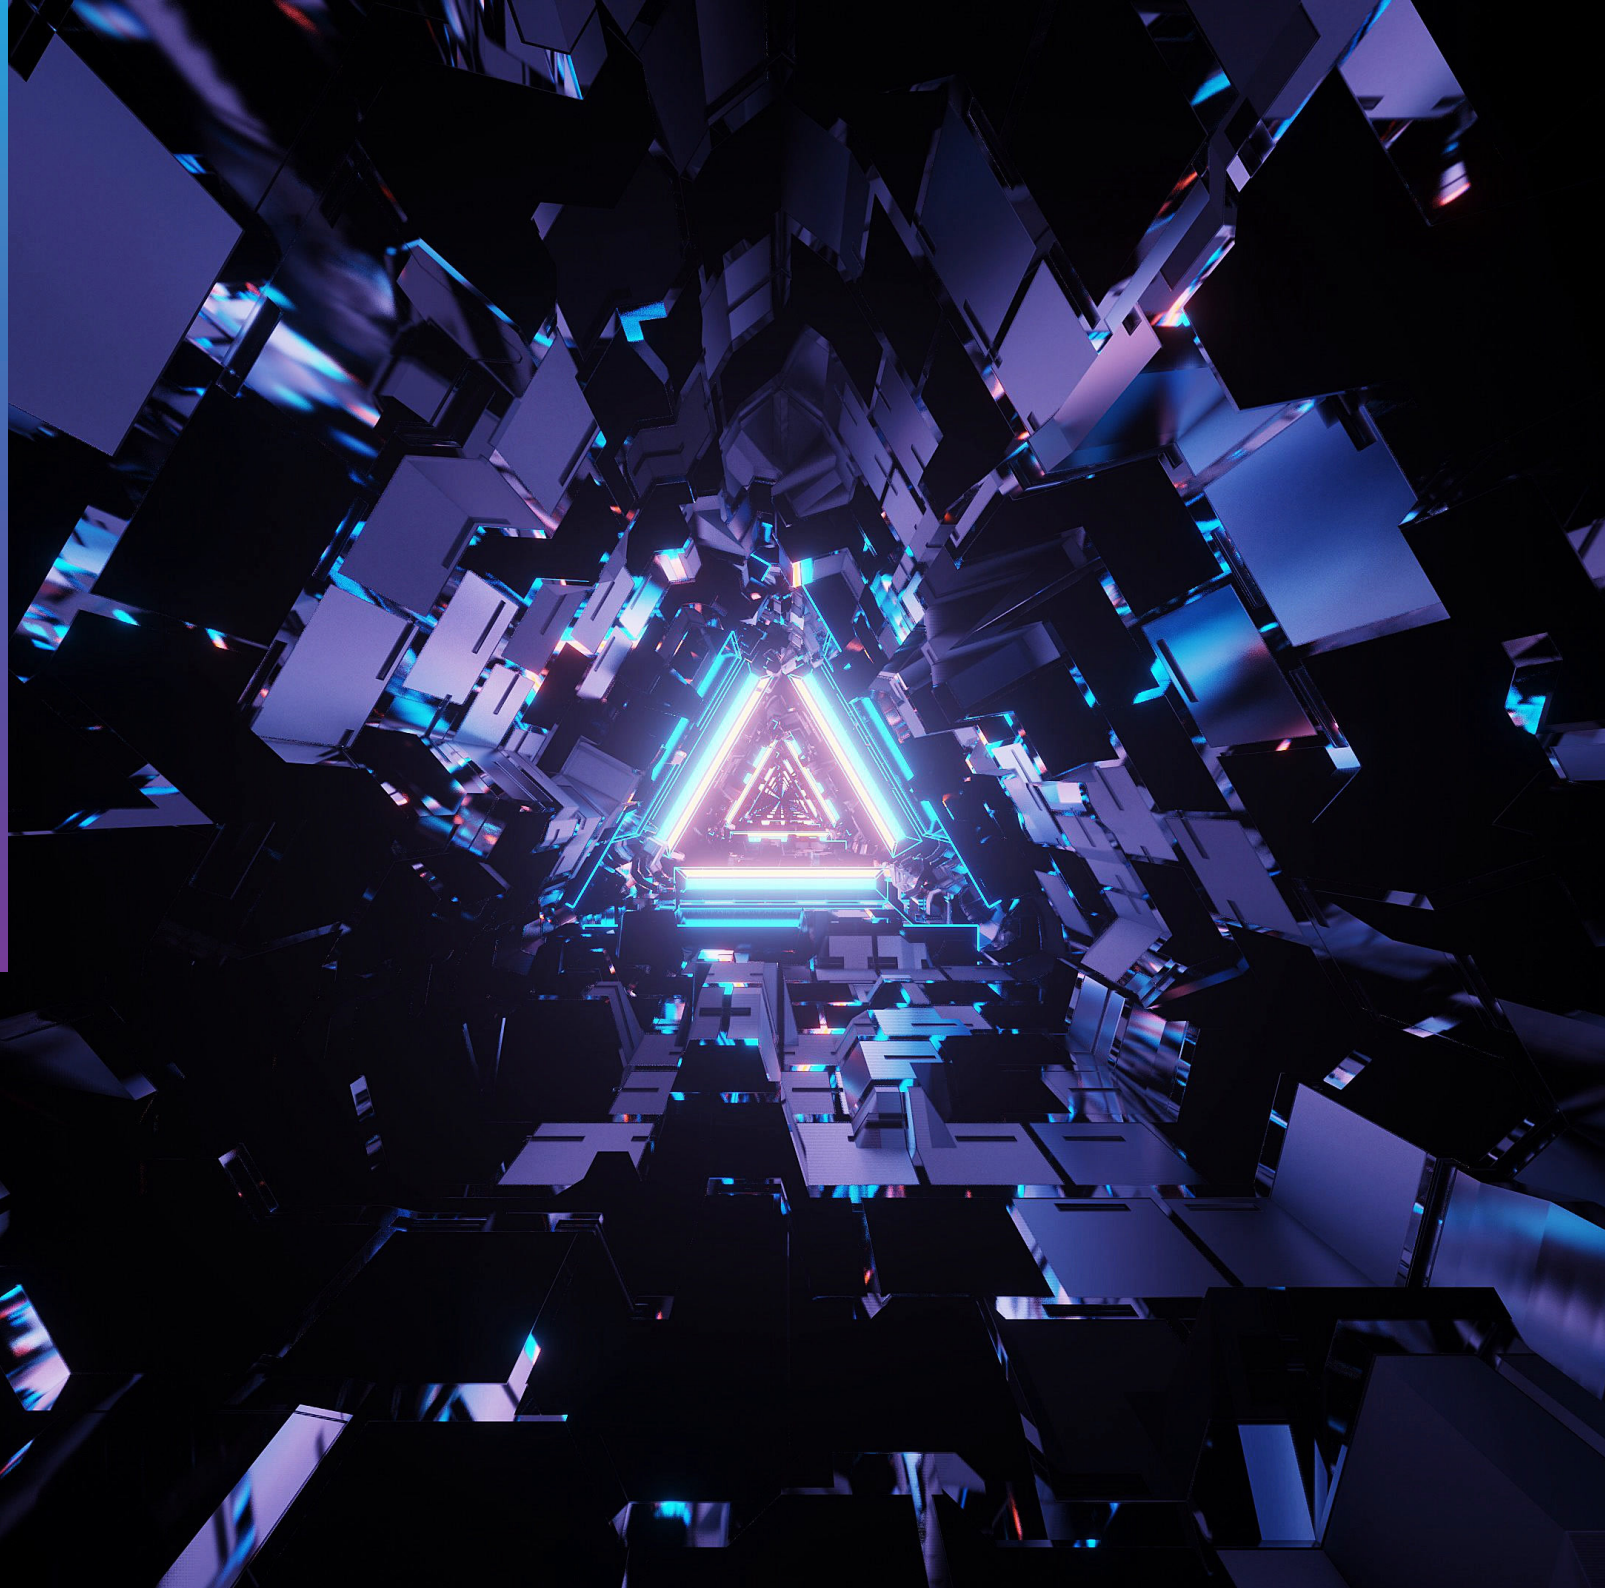

VISION

To be the cloud computing solutions partner of choice

MISSION

We empower organizations to create global impact through high-quality digital experiences

SLOGAN

Infinite possibilities, Endless opportunities

Digital Commerce

Our Digital Commerce solutions, can deliver sustained customer value, stronger business relationships, greater support capabilities, measurable revenue results, better control of data and faster platform conversion. With our deep expertise in digital commerce and technology implementation, we enable retailers and eCommerce businesses to extend their market footprint and access a new customer base

Digital Lending Solutions

Our experience in digital lending platforms backed by our expertise in deploying cloud-based solutions, can make you the Next Generation disruptor in the financial services sector.
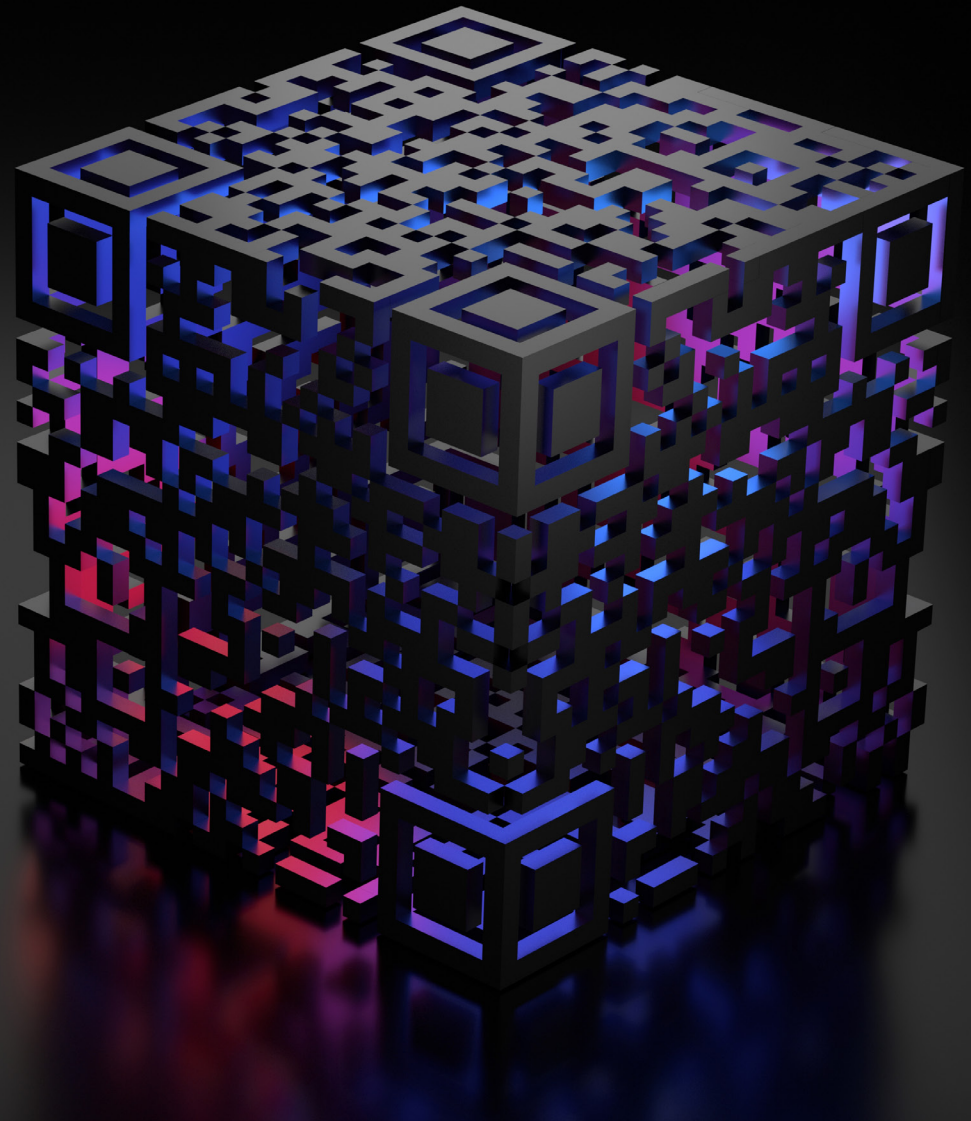

Our holistic approach to digital lending, involves reinforcing the technological framework, streamlining information management tools, integrating automation and analytics.

We deploy the right-fit loan management technology solutions to optimize costs, enhance efficiency, and minimize risk by leveraging cutting-edge technology, while spearheading digital transformation in digital lending.

FINTECH

Digital
Marketing

Sarabi Tech's marketing automation services enable businesses to stay ahead of the competition by configuring and integrating platform-based and custom marketing automation software solutions.

Our services within the digital domain help businesses in lead nurturing, personalizing customer journeys, integrating sales and marketing departments, and maximizing the return on investment.

Field Sales Automation (CPG)

Sarabi Tech provides consumer goods brands and wholesalers with a comprehensive B2B commerce platform to consistently manage all aspects of their omnichannel sales. Empowering you to sell more, better and faster, our platform uniquely combines B2B e-Commerce, Sales Force Automation, retail execution & route accounting (van sales) into an integrated mobile solution that runs natively on all devices to maximize in-person and online B2B sales.

Learning Management System

Modern training needs to be easy-to-use and accessible. Our LMS software empowers organizations to develop online coursework, deliver it with unprecedented reach and flexibility, and manage its continued use over time.

We help clients create an online learning ecosystem that includes admissions, administration, curriculum management, performance management, results management and academic research.

No need to install, upgrade or back up anything, our LMS is a cloud-powered training solution.

Logistics & Mobility Solutions

Our cloud-based mobility solution is a state-of-the-art decision- making platform, which optimizes logistics operations to provide consistency, efficiency and transparency.
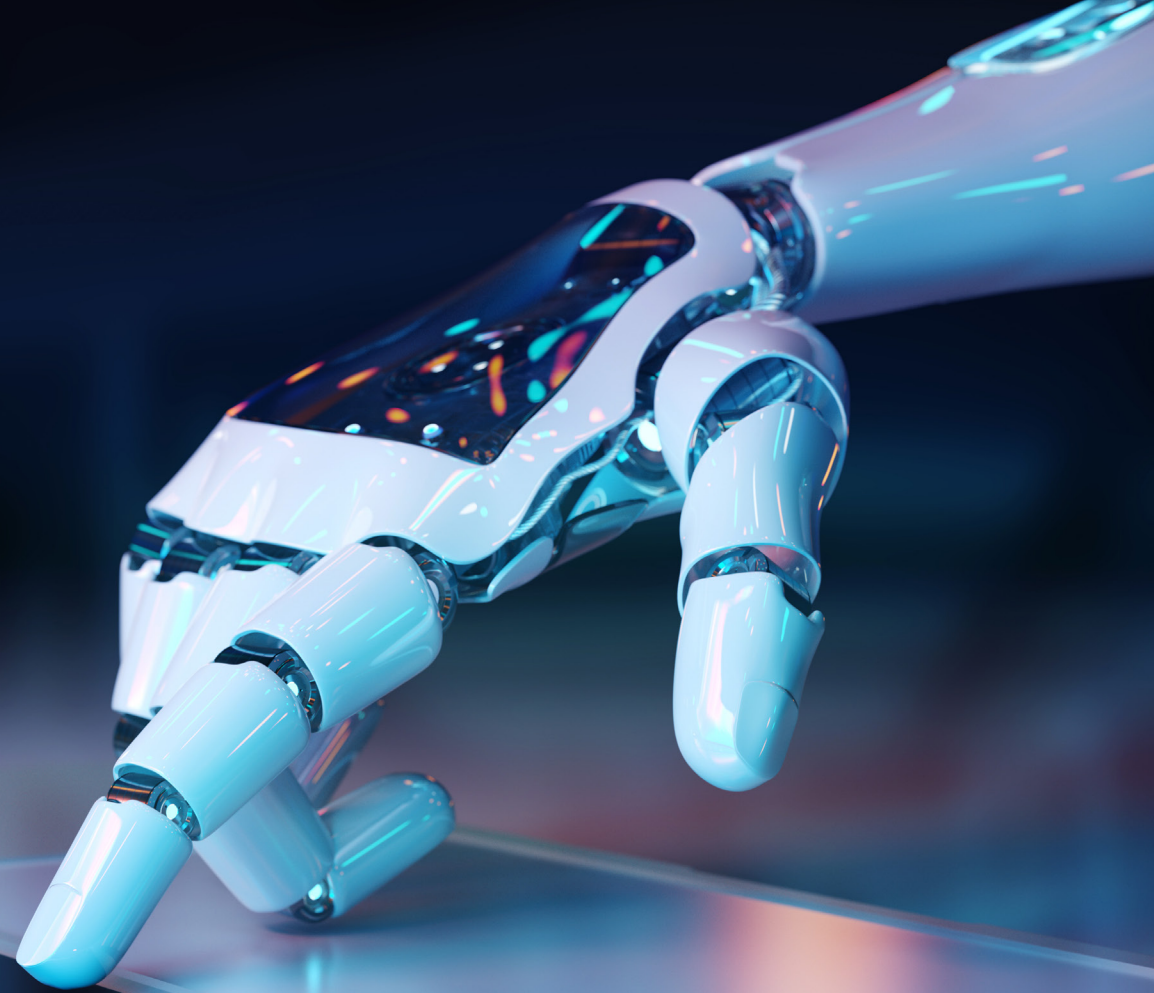

With its proprietary algorithms for solving complex problems such as load balancing, route optimization, efficient warehouse management, vehicle allocation and utilisation, intuitive 3D packing & measurement of packages and container utilization.

Property Management System

Sarabi Tech offers an all-in-one fully-featured, cloud-based accommodation management solution for small to mid-sized accommodation providers- independent hotels, hotel chains and serviced apartments.

It combines all the essential tools in a single app making it easier to manage and control your operations and online distribution channels from anywhere, anytime using any device. No software installation and updates needed.

Retail Sales Solutions

A good retail sales system should not just provide a frictionless payment experience but also integrate with your online and offline stores, build customer loyalty, optimize the consumer journey, and ensure customer engagement and satisfaction.

Sarabi Tech can help you with a scalable cloud-ready retail sales solution that has deep integration with all your marketing channels, blurring the line between online and offline stores.

Warehouse Management System

Our cloud-based WMS software solution built to automate, consolidate and streamline inventory receiving and holding, picking, packing and shipping of orders, and timely inventory replenishment to help with the planning and management of available resources and maximizing productivity with optimum staffing solutions. Most suited to small and medium-sized businesses, it offers enterprise-level functionality and countless integrations to clients in retail, e-commerce, wholesale and 3PL industries. It synchronizes multichannel inventory and orders, thereby, improving warehouse efficiency, reducing operational costs and increasing margins
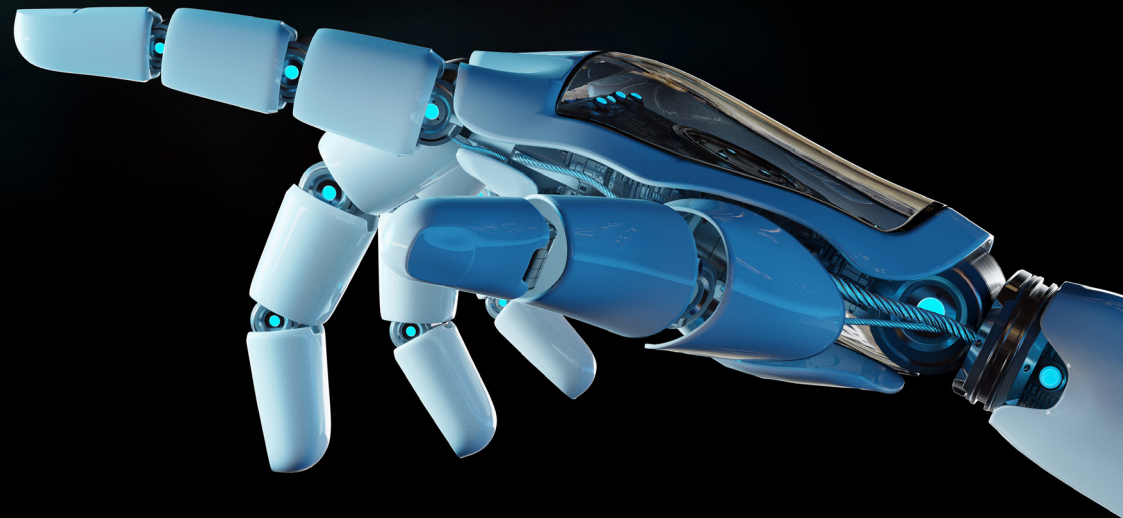

Web Design & Development

We are passionate about transferring your wildest ideas to scaled, efficient, and well-performed web platforms that successfully function in the digital world. As a metrics-driven company that provides cutting-edge technology solutions in multiple industries, we can supply you with full-cycle web development service, meeting your timing and budget requirements.
